Bulbs for Fall Planting—1921

FOR 40 years Vaughan's Seed Stores at two of the greatest importing and distributing ports—Chicago and New York—has supplied the most critical Florists with Fall Forcing Bulbs. We therefore invite you to place your orders with us now, and secure the following benefits as do all our regular customers.

- No. 1. Long and satisfactory connections with the best foreign houses.
- No. 2. Credit arrangements and closest buying at favorable exchange rates.
- No. 3. First early shipments, followed by one or more later ones covering entire shipping season.
- No. 4. Earliest deliveries of early forcing items which cannot rightly be delayed for main supply.

If, as may be possible, you find any of our prices out of line ask us for quality explanation and possible revision.

☞ All prices quoted in this catalogue are subject to U. S. Tariff changes.

No. 5. Covering by us of all "Special Expenses" excess brokers' fees and port charges at New York, in which nearly every U. S. Florist grower has been persistently robbed for the past five years. We eliminate this.

No. 6. When you buy imported bulbs from us, you buy them by measure, in centimeters or inches and so accepted by us. This means much, as against those people who sell "firsts," "seconds" or "thirds" and give you no assurance as to what such grades measure.

Dutch Roman or Miniature Hyacinths

Be sure to use Name "Dutch Romans" in ordering

(Also called Cynthellas)

Our Dutch Romans are picked bulbs of even size, and will all give large flowers. We make a specialty of these in named varieties, and our prices on same are low for the grade we furnish. Especially desirable for growing in pans for Easter Sales.

Gigantea (light pink)	Grand Maitre (dark blue)

French Roman Hyacinths

These bulbs are again allowed entry this year, but while prices are high the quantities are greatly reduced. Growers can not well dispense with these handy early blooms.

DOUBLE EARLY TULIP MURILLO

Early Double Tulips

Successful florists well know the value of these bulbs when forced for Winter Bloom. They "make up" splendidly when cut, rivaling the rose for color and shape and often attain the size of a good Peony. Grown in pots and pans they fetch big prices as decorative plants.

Our bulbs are selected by our best growers for our Florist trade and are sure to give satisfaction.

Explanatory: The number preceding the name of the variety denotes the height in inches, while the letters a and b indicate their earliness of bloom—the a's flower together and are the earliest; the b's flower together, but are somewhat late.

Manitowoc, Wis.

In regard to Tulips received last year, can say they are the best I have had yet. Stock placed grew well when taken care of. Those furnished by other concerns do not seem to show the thrifths your stock does.

Darwin Tulips

The most profitable of all Tulips for Florists' use.

OF late years, growers are realizing that these are the biggest money-makers of the whole Tulip race.

The stately beauties are borne on stems often 3 feet high, the colors running from almost black to the loveliest pinks, crimsons, lilac, mauve, and many other light or pastel shades. Grown under glass, they force admirably with gentle heat, and seem to develop more delicate shades than out of doors. Those that force best are marked (f):

NARCISSUS—Continued

Paper White Grandiflora

THIS season we again have this stock on **first** French steamer into Port of New York, making earliest delivery of these most important forcing bulbs for the florist.

Our Bulbs are as usual, packed in **full sized** standard cases and are graded in France exactly as we sell them. It is well known that again this season as last, certain importers are bringing in **undergraded** bulbs in **short cases**.

The crop in France is a short one this year. Bitter blizzards in December checked the top growth of these, and the shortage arising therefrom was not discovered until the bulbs were lifted and graded. We **think** early buyers will do best. We expect the 14 cm. size to be especially short.

We repeat what we said last year, be sure that you receive **full sized cases** of the measurements you pay for when you compare our prices with others and that same is **not** based on extra charges to be added for cases, brokers and other incidentals.

We ask that in ordering this stock from this catalog, you give us the privilege of filling with the next lower size if we cannot furnish the exact size which you order on receipt of this book.

I might say your Paper Whites came through in fine shape and up to the standard. Put a feather in your cap.

Vaughan's Seed Store, Chicago, Ill.

Gentlemen—As per your instructions I am herewith returning duplicate of the order for Gladiolus for fall shipment.

We are having splendid success with the lot of Gladiolus bought from you last fall. Very true, we have a good assortment of cut flowers at the present and yet they are going very nicely. We are cutting somewhat on the price, in other words, reducing the price on the flowers with a good profit. I am, respectfully yours,
CHAS. P. MUELLER.

LILIUM GIGANTEUM

LILY BULBS delivered by us in the past season have as usual proven satisfactory to our growers when forced. The grading has been equal to that of former years. Undersized Bulbs, crescent shaped and mal-formed specimens are rejected.

We are ready and anxious to submit samples of our stock for comparison with any offers in this market.

Market conditions on these are not yet known as we print this. Write us if you are especially interested in Lilium Giganteum of best type. There is the usual report of "Short Crop."

LILY OF THE VALLEY

In packing and grading the Lily of the Valley Pips for our trade, pips of one type and style of growth, raised on the same soil, will be branded separately, so that the customer receiving a certain number and brand from us, and forcing it to his satisfaction can depend on the same grade right along until sold out and will be advised by us when the grade is changed. This, we believe, will be much more satisfactory to the forcer than the former indiscriminate method of delivering all kinds and shapes of Valley under one brand, the planter never knowing what kind of a pip would open up in the next case received.

LILIUM FORMOSUM

Growers must not force Formosum in great heat. A cool house, 60 to 65 degrees, with plenty of moisture is better, but they will certainly do best when grown in pots. The so-called Formosum seems to be a class rather than a single type, and starts into growth irregularly, so if in pots they can be shifted into sections representing varying heights thus giving the growing plants of different heights proper light and watering.

Ten days in cold storage before planting is sure to benefit the crop

The stems are long, strong and stiff; it is most prolific in bloom, many of the bulbs sending as many as four stems. Not being a single type, it comes into bloom more gradually than **Purity**, the crop lasting more than two weeks makes it very valuable to the florist. Per 100, \$6.00; 1000, \$50.00.

New French Freesias

Progressive florists should not fail to plant some bulbs of this beautiful novelty. Their unique colorings and shadings and their delicate fragrance should find ready sales.

HYDRANGEAS FOR FORCING

Strong stock ready in November and December

Of all the plants for Easter and Spring flowering this one is probably the most popular and important. The following varieties have been selected, after careful consideration, as the most suitable for Florists' use. The imported pot-grown stock is superior. All have 3 to 4 flowering shoots.

Attraction. A very pretty pink, early and free.

Avalanche. A deservedly popular white variety.

Baby Bimbenet. Very dwarf, free and early. Large compact trusses of silvery-rose flowers.

Lilly Mouilliere. Bright carmine rose, one of the best.

Otaksa. The old favorite pink which still holds its place as an Easter forcer.

Sou de Mme. Chantard. A dark pink, an early bloomer and a strong grower.

Trophee. The reddist red. A vigorous grower, free bloomer, of a deeper shade than Lilly Mouilliere. Has been accorded the most unreserved praise of any variety grown. A real red, an excellent actor.

An orchid-flowering sport of the well-known variety King Humbert. Has the same habit of growth as its parent; foliage a very dark green, with flowers measuring 5 to 7 in. across; individual petals 3 to 3½ in. in diameter. Color of flower a deep rich yellow, softly spotted and blotched with bright red.

KING HUMBERT 4 FT. SCARLET FLOWERS, BRONZE LEAVES, GREATEST FAVORITE TODAY

This remarkable "Gold Medal" Canna has been the sensation of the past eight years. It is a cross between the orchid-flowering and the French or Crozy type, combining the best features of both, the large flowers of one with the free-blooming character of the other, and the handsome broad, tropical foliage.

We have seen and tested many varieties during the years we have devoted to their culture and have never seen one that can approach it.

Our shrubs are Nursery-grown and are transplanted every two or three years. They are nice, shapely bushes with plenty of good fibrous roots, and are such plants as are in demand by the first-class retail trade. Our Nursery is located at Western Springs, 15 miles west of Chicago, on the C. B. & Q. R. R., two blocks south of 47th Street, on the continuation of East Boulevard.

Visitors are invited to inspect our stock at any time. We have a choice lot of specimens such as are not usually seen. Our customers will be pleased with the class of stock we send them.

VAUGHAN'S INTERNATIONAL PANSIES

Vaughan's International Pansy Mixture was first offered by us in 1889. We import from all the best European sources. Each year has added to the quality of its flowers and variety of its colors. We buy every year, novelties of known merit to improve the mixture; it is always complete, always the latest and always the best mixture. We add to all Pansy Mixtures which we now buy, more than 50 per cent of the choicest named kinds obtainable, each in correct proportion. This is one of the Specialties that has established the reputation of Vaughan's Flower Seeds, and one which we maintain most carefully. Trade pkt., 50c; ½ oz., \$1.50; ¼ oz., \$5.00; oz., \$10.00.

Vaughan's Giant Pansy Mixture

Trade pkt., 50c; ½ oz., 75c; oz., \$5.00; ¼ lb., \$18.00.

Vaughan's Cut Flower Mixture

This mixture is put up by ourselves and contains mostly light colored sorts. We have sold this mixture for several seasons to some of our Chicago cut-flower growers, who have realized big returns from the sale of flowers. Pansies are as easily grown as violets, require less care and bring better results.

Trade pkt., 25c; ¼ oz., 60c; oz., \$4.00

New Early-Flowering Giant Pansies

Fair Maid. Finest blush pink suffused salmon, on white ground, of robust growth, with long stems carrying fours regularly. Exact counterpart of Elfrida Pearson in the late Spencer class. Oz., \$1.50; lb., \$20.00.

Madonna. Black seeded white. Result of a cross between late Constance Hinton and Early Asta Ohn, unlike other black seeded white; it has no trace of a pink tinge. SPHAGNUM MOSS

Many of the Sphagnum Moss swamps in the Wisconsin district have been worked out that the remaining sections contain only old deposits, frequently full of brush, weeds and grass. Our Moss is from one of the largest and cleanest swamps in the Wisconsin cranberry region and the Sphagnum is bright, clean, of new growth, and free from brush or dead moss. Our contract requires the bales to be of the full standard size, which is 45x14x16 inches, solidly packed, and covered with new burlap. We own our moss at right prices, and on a quality basis can meet all competition. The labor situation has improved and supply is better.

We are putting up clean Sphagnum Moss.

VAUGHAN'S HIGH-GRADE FERTILIZERS

The Yield and Quality of Vegetables Depend Upon Continuous and Rapid Growth

It has been demonstrated that market-garden crops of the best quality are those which are grown under conditions which permit of a continuous and rapid development. Any delay in the growth of a lettuce or radish causes that sharp and pungent flavor of the former and the bitterness and toughened fibre of the latter, beets become stringy, etc. Plant food of the right amount and kind controls the yield and quality of market-garden products more than

any other condition, and it is neither wise nor economical to depend upon the natural condition of the soil or the application of stable manure only for profitable crops.

Prices are unsettled. In case market declines, orders will be filled at market prices and difference refunded.

VAUGHAN'S LAWN AND GARDEN FERTILIZER

Formula 3-11-1, meaning 3 per cent available ammonia, 11 per cent phosphoric acid, 1 per cent potash. A very desirable high-grade all-around fertilizer. There is sufficient ammonia to give the young plants a quick and vigorous start and maintain a healthy growth. Grass and early garden truck need lots of phosphoric acid, which this supplies. For lawns, make first application in the early spring when frost is out of the ground, distribute evenly 25 pounds of fertilizer to every 1,000 square feet of lawn. In seeding down a new lawn, scatter double the amount, 50 pounds of fertilizer in every 1,000 square feet; rake thoroughly, then sow seed.

Fertilizer Mixture 5-8-7 Per Cent Analysis

This is our best brand of concentrated manure; excellent for mixing into potting soil or as a top dressing. It is a money-maker. For potting soil, use about 20 pounds to a cubic yard of soil, and for the dressing scatter it about as thick as lawn grass is sown, after loosening the surface of the soil. It is excellent for Carnations if applied by the end of October or in November. It can also be applied as a liquid manure by using an 8-inch potful to a barrel of water. 25 lbs., \$1.75; 50 lbs., \$3.25; 100 lbs., \$5.75; 500 lbs., \$25.00; 1,000 lbs., \$48.00; 2,000 lbs., \$90.00.

BONE AND BLOOD. For Cabbage, Cauliflower, Corn and other crops of big surface growth; not desirable for root crops except it is used in connection with potash, salts, or hardwood ashes, and if so used it is especially adapted to fruits, if applied early. For garden crops use 300 to 500 lbs. per acre. Price, 25 lbs., \$1.25; 50 lbs., \$2.25; 100 lbs., \$4.00; 500 lbs., \$18.00; 1,000 lbs., \$34.00; 2,000 lbs., \$64.00.

Lime will be found very beneficial in the growing of all garden crops, fruit trees and flowers. Try it on the lawn too. Apply after the land is plowed or dug for a crop, scattering with a lime distributor, 2 tons or more per acre, or by hand in small gardens—about a large handful to a square yard. VAUGHAN'S "ROSE GROWER" BONE MEAL.

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. Free from acid, and a superb article. It is made from bone accumulated in large slaughter houses, and should not be compared with the Bone Meal made from cattle heads and feet gathered upon the Western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it and is thus quicker in its action. Analysis: Ammonia $4\frac{1}{2}$ to $5\frac{1}{2}$ per cent; total phosphoric acid, 22 to 25 per cent; bone phosphate, 48 to 54 per cent.
